

**DRAFTER'S NOTE  
FROM THE  
LEGISLATIVE REFERENCE BUREAU**

LRB-3578/P1dn  
RCT:cjs:rs

January 25, 2012

Eileen Schoenfeldt:

This is a preliminary version of the proposal related to concerns that EPA has raised about this state's wastewater discharge statutes. As we discussed, this draft is not yet complete. I believe that it includes provisions that respond to all of the items that you have sent over, except for items 2. c., 6., and 9. of the original instructions. I will continue to work on those items, as time allows, while this version of the draft is being reviewed.

Note that there are some notes in this draft raising issues about specific provisions.

Please contact me with any questions or redraft instructions.
